Cybersecurity, Identity Theft and Your Practice

Cybersecurity is a term you hear more frequently in the news – from reports on election hacking, electric utilities, to ransomware... But how does this affect you, your office, and your role and potential liability?

This 90 slide presentation covers local events, how they impacted local businesses, and how to minimize the risk you'll be next.

Speaker: Ben Graybar

Ben Graybar is a VP & Commercial Banker at Hancock Bank. In this role, he reviews Treasury Management tools available for clients. He became a victim of identity theft, while having a friend lose his business over a cybersecurity breach. This started him on the crusade of researching and presenting on the topic.

Sponsor: Hancock Bank

Time: 12 Noon to 1:30 pm (seminar starts at 12:30 pm)

Place: CHP Auditorium, 2nd Floor - 1491 Governors Square Boulevard
