Advocacy

Our members work in conjunction with the Florida Medical Association and the American Medical Association to inform legislators at the state and national level on key legislative issues that impact physicians and their patients.

Paying it Forward

The Capital Medical Society Foundation awards scholarships to local medical students to help defray the cost of medical education, and helps address medical students' food insecurities at the FSU College of Medicine Tallahassee Regional Campus by supporting a food pantry.

But Wait... There's More

EDUCATION – CME courses and other educational programs are provided throughout the year.

INFORMATION – CMS takes a leadership role in communicating time-sensitive information to our members and their staff through regular emails, our weekly digital e-newsletter *CapMed Today*, and our award-winning bimonthly publication *Cap Scan*.

WELL-BEING – The CMS Foundation's Physician Wellness Program is available to Active and Associate members, TMH Family Medicine Resident members, and HCA Resident members and provides six, free wellness-coaching sessions a year.

CE BROKER – Every licensed CMS member has access to a discounted Professional CE Broker account as part of their membership, at an exclusive rate of only \$25 per year (a \$14.99 savings compared to the normal professional rate).

LUNCH AND LEARN – Informative sessions are offered monthly during the year to CMS member medical practice clinical and non-clinical office staff.

REFERRALS – CMS frequently receives inquiries from the public seeking information to select a physician and makes referrals to CMS member physicians.

DISCOUNTED SECURE MESSAGING AVAILABLE – Every licensed CMS member has access to discounted secure messaging services and paging solutions through Spok, the largest paging network in the U.S., which is in more than 2,200 hospitals. Contact Rosalie Carlin at rcarlin@capmed.org for information on how you or your practice can enroll.

GIVING BACK – Member physicians who are part of the CMS Foundation's We Care Network donate more than \$5 million annually in healthcare services to low-income, uninsured adults coordinated by the We Care Network staff.
